

Boon's

10

Top 10

Why Boon? Here's our Top 10!

With so many options for your care, making the right choice can be tough. Not anymore.

Boon provides a broad range of products and services to an even broader range of clients. Boon has experience with virtually any size or industry! We have the structure and steam to deliver end-to-end administrative services, which allows us to provide robust solutions for clients with as few as 25 full-time employees to clients with 100,000+ employees.

At Boon, our company vision is driven by the desire to provide meaningful and flexible benefits to our clients. We want your benefits to work for you.

Here are our top 10 reasons why Boon is the best choice for your healthcare needs:

We deliver

1 Boon has been helping employers subject to Service Contract Act, Davis Bacon Act, State Prevailing Wage, and Local Living Wage Ordinances stay compliant and competitive since 1982. Headquartered in Austin, Texas, we have government contract consultants working in 14 regional offices across the country, giving us the capacity to deliver quality service to every single one of our members – 365 days a year.

Client-centric administration system

2 Our state-of-the-art online administration system provides a client-centric approach to customer engagement, claims management and health and welfare compliance, allowing us to bring more to our clients for less. This system streamlines the process from implementation to delivery, bridging the gap between employers and employees. Featuring reporting, real time updates, work-flow task tracking, and more. Which makes accessing your compliance requirements and healthcare administration simple and flexible.

Dedication to upholding the highest standards

3 Under a SOC I Type 2, Boon is audited, annually, by independent auditors who test for five elements of control. These elements are: monitoring, control environment, risk assessment, control activities, and information and communication. Boon works diligently to meet those high standards to assure you the very best!

Our in-house experts

4 One of Boon's greatest strengths is our expert team of in-house professionals. From in-house General Counsel to a full compliance department, we focus on what contractors need most – compliance. Our accounting services tackle the finer details of payroll processing, trust accounting, as well as compliance and monthly financial reports, allowing you to focus on your core business strengths.

Online employer and employee suite of tools

5 Our extensive suite of user-friendly online tools for employers and employees were designed with convenience and efficiency in mind. Examples of employer tools include: enrollment updates, information editing, eligibility, terminations, deduction and hours' history, qualified benefit charges, and more. Examples of employee tools include: enrollment information, EOB history, ID card reprinting, hour bank balance, forms library, COBRA, and more.

6

COBRA and HRA

One of the perks of providing all services at Boon! Employers have direct access to full COBRA administrative services, including notifications, billing and payments. We also offer Health Reimbursement Arrangement (HRA) administration with access to a HRA benefit card.

7

Full claims and compliance administrator

Boon Administrative Services, Inc. is a full claims and compliance administrator specializing in the delivery of hourly priced benefit plans. Simply, traditional monthly priced benefit plans are not always the best fit for an hourly workforce. The advantage to our clients, when using one of our benefit plans, is the ability to reduce the number of touch points necessary to manage and utilize healthcare. In many cases, all employer and employee questions pertaining to either administration, compliance, claims or eligibility can be answered with one phone call or login ID.

8

Co-fiduciary support

We are the only Registered Investment Advisory (RIA) providing open-architecture retirement plans focusing on the government contracting industry. Open up the best funds to your members and remove hidden excess fees. At Boon, we are dedicated to helping government contractors reduce costs and stay competitive when it comes to retirement options.

9

Exceptional client services

We employ an entire staff of benefits specialists, administration experts, and dedicated account managers who stay with our clients for the duration of the client life cycle. We handle all paperwork, claims, and support services, serving as full-time administrators of your employees' coverage.

10

The flexible partner

Boon understands all contractors are not the same. Some contractors may want an off-the-shelf solution, while others strive for a custom assortment of benefits. Choose the administrator which offers multiple methods of fringe benefits administration. All of the services provided to the largest of contractors are also available to our smaller clients.

Boon wants to deliver healthcare that is meaningful to you and your employees. Our goal is to provide you with healthcare that is streamlined and tailored to meet your needs.

When it comes to importance, you'd be hard-pressed to find something that matters more than your health and that deserves a company that puts you first.

Choose **Boon** and get your benefits from the most knowledgeable and attentive team in the business!
